

Dronetize your Vision

Cando Drones is an aviation company that establishes and manages autonomous drone systems. The company provides its clients with a TurnKey solution that includes focused control flight services, air space organization, regulatory compliance, system integration, ground logistics management, implementation, training, and professional and technical support.

We enable clients to maximize the capabilities of drones for a wide range of needs. The company leads projects in the following areas: public safety, services for municipal authorities (supervision and enforcement for the public safety, documentation, modelling, emergency response), security, delivery.
